
Caribbean Cinema Echoes

02/10/2014

The meeting proposes the debate of some of the difficulties that could interfere in the successful and right presentation of the sample throughout the Caribbean region, so there will be a necessary revision of the event through the Sample coordination programs groups in each country of the region.

The 6th Itinerant Sample of the Caribbean Cinema dedicated this time to the Caribbean music arrived to Granada in September. A presentation of 18 productions made by filmmakers of the region took place in the capital, St. George's, an action that strengthens the integration and the unity of the Caribbean countries at the cultural level.
