
Xi Jinping Urged Trump To "Show Flexibility" Over North Korea Sanctions

02/07/2019

Beijing: Chinese President Xi Jinping urged US President Donald Trump to "show flexibility" towards North Korea, including the "timely" easing of sanctions, at the G20 summit last week, China's foreign minister said Tuesday.

Xi "pushed for the US to show flexibility and meet the DPRK (North Korea) halfway, including the timely easing of sanctions against the DPRK and finding a solution to each other's concerns through dialogue," Wang Yi told reporters.
