Moldovan President Igor Dodon met with Anna Teresita Gonzalez Fraga, Deputy Foreign Minister of the Republic of Cuba, who is in our country on a working visit.

The parties discussed current issues of bilateral cooperation between our states, speaking out in favor of their development in all areas of mutual interest. Igor Dodon expressed hope that the current visit would give a new impetus to bilateral dialogue, contributing to the development and deepening of ties between the two countries.

"We noted the insufficient implementation of trade and economic potential. The last trip of representatives of business circles of the Republic of Moldova to Cuba, organized under the auspices of the Chamber of Commerce and Industry of the Republic of Moldova, took place in April 2013. I advocated intensification of relations in this direction, organization of contacts at the level of business circles, increase in trade, implementation of bilateral economic missions, participation in fairs, exhibitions and other events, development of cooperation in the agricultural and food industries, in the field of tourism and healthcare," the President noted on his page on the social network following the results of the conversation.

At the end of the discussion, the Head of State thanked the representative of the Cuban government for invitation to visit this country at a convenient time.
