
Mongolia signs MOU for the application of Cuban product Biorat

10/12/2019

The Mongolian Minister of Agriculture, Food and Light Industry, Mr. Ulaan Chultern, visited the Cuban Biorat factory of LABIOFAM S.A. Business Group, in Cantho province, Vietnam, where he signed a MOU.

The Cuban and Vietnamese specialists working in this industry explained to the Mongolian minister the production processes of BIORAT, as well as the benefits of the product and its effectiveness in rodent control, besides knowing the details of the business opportunities portfolio, productions and exportable services of the prestigious Cuban company.

The MOU signed by Mongolia indicates the interest of starting the extensive use of the product in that country, severely affected by rodent plagues in most of its areas of crops and livestock grazing.

Mr. D. Tumendemberel, director general of the plant protection institute, and Mr. Dorj Erdene-Ochir, first secretary of the Mongolian embassy to Vietnam, also participated on the Mongolian side.

Dr. Madyurys Tellez Sanchez, regional director of LABIOFAM S.A.; Mrs. Indira Lopez Arguelles, consul general of Cuba to Ho Chi Minh city; among other directors and experts of the factory were present on the Cuban side.
