
Ibero-American Summit Prepares Final Declaration

08/12/2014

"The final declaration is practically ready and we have adopted a series of resolutions proposed by several countries," said the Cuban official, quoted by PL news agency.

Two resolutions promoted by Cuba were approved, he noted, one condemning the US blockade of the island and another one rejecting all forms of terrorism. Also adopted were draft resolutions on Argentina's sovereign debt, climate change, migrant children, and others, said the official.

Debates also focus on the plan of action of the Ibero-American summit and the budget of the secretariat for the next two years.
