
Cubanacan expands its scuba diving programme in Cuba

02/06/2014

Cubanacan Travel Agency has expanded its scuba diving programmes in Cuba, allowing visitors to explore more underwater sites around the island. The nine to ten-day itineraries will cover the west and east shores of Cuba visiting Cayo Levisa, Havana coastline, the Zapata Swamp, Santa Lucia and Marea del Portillo.

Cubanacan Travel Agency has announced the expansion of its diving programmes throughout Cuba, giving divers the chance to explore more of the Caribbean island's underwater world.

The scuba diving programmes will cover the east and west sides of the island, visiting unique underwater sites during nine to ten-day tours.

The tours will allow visitors to enjoy scuba diving adventures where they can explore the Havana coastline, the Zapata Swamp in the west, and the waters off the beaches in Covarrubias, Santa Lucia, and Marea del Portillo which boasts stunning coral reefs.

During the scuba diving tours, which have been designed for qualified adult divers, visitors will have the chance to dive along vertical walls, go wreck diving down to sunken ancient ships, and marvel at the beautiful sea life.

Cuba is an island nation in the Caribbean Sea and home to the world's second largest coral reef.

One of the most popular scuba diving destinations in Cuba is Jardines de la Reina, "Gardens of Queen", coral reef which is 200 kilometres long from east to west and home to an abundance of beautiful marine species such as Moray eels, groupers, crabs, lobsters, rays, turtles, barracudas, huge sea bass, sharks, colourful sponges, Black Coral and many more.

The Jardines del Rey, "Gardens of the King", archipelago features crystal clear ocean waters and an impressive barrier reef system. The turquoise waters offers superb conditions for scuba diving and visitors can experience
